

September 22nd, 2010

The Honorable Senate Majority Leader Reid:

522 Hart Senate Office Bldg

Washington, DC 20510

Dear Senate Majority Leader Reid:

As conservation, park, refuge, forest, sportsmen, trails, land trust and recreation organizations, we want to express our deep appreciation for your leadership in including permanent and dedicated funding of the Land and Water Conservation Fund (LWCF) in S. 3663, the Clean Energy, Jobs and Oil Company Accountability Act.

With the historic House passage on July 30th of H.R. 3534, the Consolidated Lands and Energy Aquatic Resources (CLEAR) Act, LWCF is closer than ever to finally fulfilling its 45 year promise to provide permanent and dedicated funding for critical conservation and outdoor recreation needs across the country. With your continued leadership, we are hopeful that the Senate will take up and pass S. 3663. As the LWCF Coalition, we stand with you to assist in this effort.

LWCF is authorized to receive a very small percentage of OCS revenue - \$900 million a year from revenues that typically exceed \$6 billion annually. Over the years, however, much of that \$900 million has been diverted from its intended purpose in the annual budget and appropriations process. Today, the LWCF has an authorized balance of more than \$17 billion – a \$17 billion unmet promise.

The tragedy of the BP oil spill reminds us how vulnerable our public lands and waters, surrounding communities, and wildlife are to harm. We need sustained investment to provide long-term protection for the natural places that are so important to all Americans and the Land and Water Conservation Fund was designed to do just that.

During these difficult economic times, it is important to note that outdoor recreation, much of which takes place on lands protected by LWCF, is vital to our nation's economy. Hunting, fishing, camping, climbing, hiking, paddling, backcountry skiing, mountain biking, wildlife viewing, and other activities contribute a total of \$730 billion annually to the economy, supporting 6.5 million jobs (1 of every 20 jobs in the U.S.) and stimulating 8 percent of all consumer spending according to the Outdoor Industry Foundation.

The Clean Energy, Jobs and Oil Company Accountability Act is important legislation that includes crucial policy and programmatic provisions to move our nation towards a safer and more secure energy future. In that context, S. 3663 recognizes the need to reinvest revenues from our depleting energy resources in conservation, to protect our public lands, and to promote access to close-to-home outdoor recreation opportunities.

We look forward to continuing to work with you towards final passage of energy legislation that includes permanent and dedicated funding of LWCF. Thank you for your historic leadership in fulfilling the longstanding but broken promise of LWCF to protect our national and cultural heritage for future generations of Americans.

Sincerely,
